NC Violent Death Reporting System

VIOLENT DEATH IN NORTH CAROLINA: CONGRESSIONAL DISTRICT 10, 2024

- An estimated 766,029 North Carolina residents reside in Congressional District 10.
- In 2024, there were 193 violent deaths from injuries sustained by individuals living in Congressional District 10.
- The vast majority of decedents were residents of Forsyth (36.8%), Catawba (25.4%), and Iredell (19.2%) counties.

Manner of Death: Congressional District 10, NC*

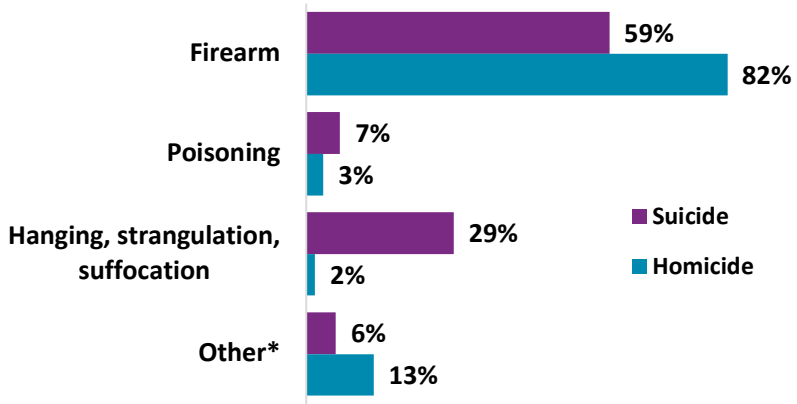

*Based on the residential address of the victim

- There were 122 suicides (63.2%), 61 homicides (31.6%), one unintentional firearm death (0.5%), six deaths from legal intervention (3.1%) and three deaths of undetermined intent (1.6%).

- Firearms were involved in 59% of suicides and 82% of homicides.
- Among homicides caused by firearms, 72% were caused by handguns, 4% by shotguns, and 14% by rifles.
- Among suicides caused by firearms, 88.9% were caused by handguns, 6.9% by shotguns, and 4.2% by rifles.
- The second leading method of death for suicide was hanging, strangulation, or suffocation (28.7%).

Firearms were involved in 66.7% of all homicide and suicide deaths

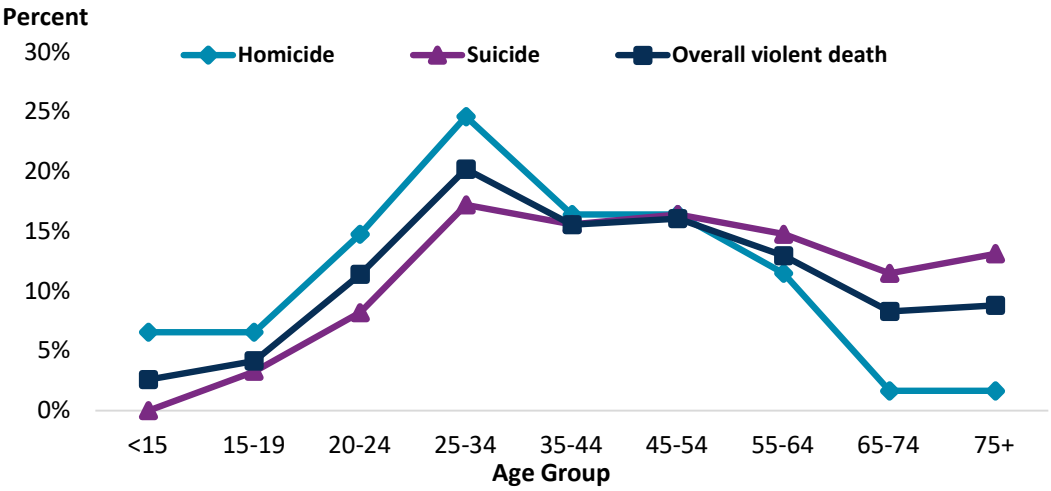

Method of Death: Congressional District 10, NC*

*Other includes falls, motor vehicle, sharp instrument, fire/burns, unknown and other methods

The North Carolina Violent Death Reporting System (NC-VDRS) is a CDC-funded statewide surveillance system that collects detailed information on violent deaths that occur in North Carolina, including homicide, suicide, unintentional firearm deaths, legal intervention and deaths of undetermined intent. NC-VDRS triangulates information from death certificates, medical examiner reports, and law enforcement reports to understand and aid in the prevention of violent deaths. Data reported in this document are based on residential address of the victim and, instead of a rate, the ratio is reported. This document summarizes fatal injuries from violence that occurred in Congressional District 10 for the year 2024. Since not all deaths resulting from violence are able to be geocoded, the violent death numbers represented in this fact sheet may be slightly underestimated.

Manner of Death by Age Group: Congressional District 10, NC*

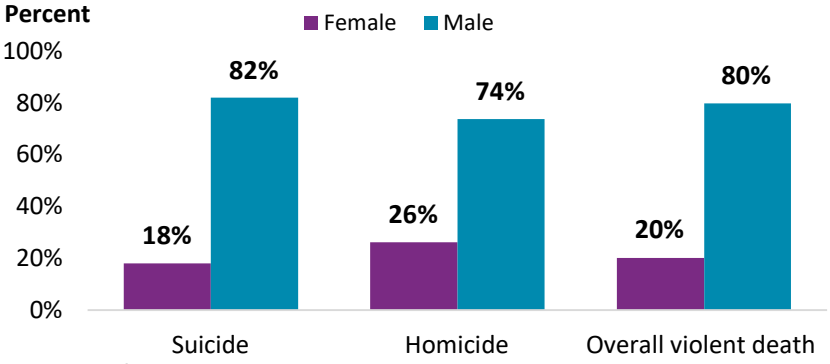

*Age group percents are taken of total homicide, total suicide and total overall violent deaths

- Suicides and homicides displayed similar age patterns until age group 65-74.
- Both homicides and suicides peaked among those 25-34 with 24.6% of total homicides and 17.2% total suicides.
- Percentage of overall violent deaths peaked among those 25-34 and 55-64 at 20.2% of total violent deaths.

- The majority of suicide and homicide victims were male. There were 100 male suicide victims and 45 male homicide victims, which accounted for 82.0% and 73.8% of victims, respectively.
- There were 22 female suicide victims and 16 female homicide victims, which accounted for 18.0% and 26.2% of victims, respectively.

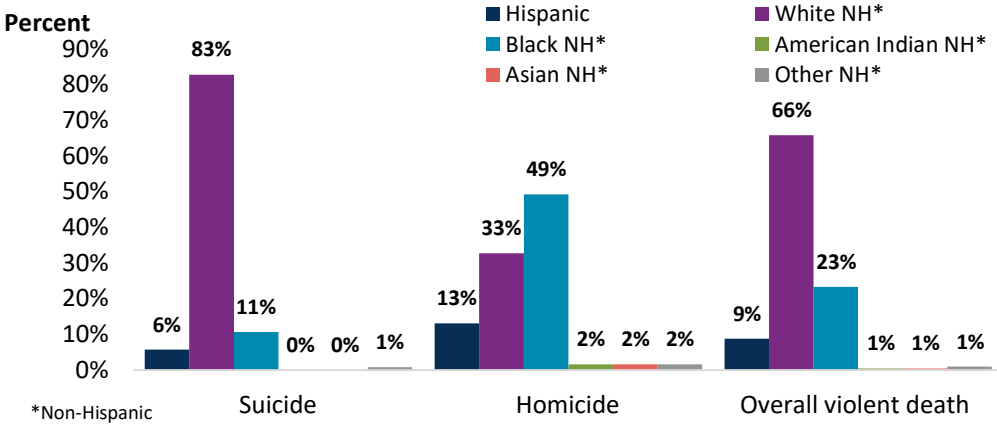

Males have higher proportions of violent deaths than females

Manner of Death by Sex: Congressional District 10, NC*

Uneven distributions are seen among race and manner of death

Manner of Death by Race: Congressional District 10, NC*

*Non-Hispanic

- Patterns of suicide and homicide differed by race. 82.8% of suicide victims were Non-Hispanic (NH) White while only 10.7% were NH Black.
- In contrast, 49.2% of homicide victims were NH Black, and 32.8% were NH White.
- Overall, there were 17 (8.8%) Hispanic, 127 (65.8%) NH White, 45 (23.3%) NH Black, 1 (0.5%) NH American Indian, and 1 (0.5%) NH Asian victims.

The North Carolina Violent Death Reporting System is supported by Cooperative Agreement 5NU17/CE924955-02-00 from the Centers for Disease Control and Prevention (CDC).
