

# The Next Generation in Onsite Chambers

**Quick4™**  
STANDARD CHAMBER

**INFILTRATOR®**  
SYSTEMS INC  
Environmental Onsite Wastewater Solutions™

# The Quickest Chamber

Optimal installation flexibility. Ideal for curved

The evolutionary Quick4™ Standard Chamber is the most advanced, quickest to install leachfield product available today. Ideal for curved and straight systems, it's the only leachfield product installers will ever need for onsite installations. See why the Quick4 Standard Chamber is light-years ahead of all other onsite leachfield products.

Contour Swivel Connection

MultiPort End Cap

## Contour Swivel Connection™

### Advanced Contouring Capability

- Chamber easily follows contours or an “S” curve
- Each connection swivels 10-degrees right or left
- Contouring capability easily avoids obstacles without additional parts or accessories
- Latching mechanism allows for quick installation

# in the Onsite Industry

and straight systems. Multiple piping options.

## Four-Foot Length

### Optimal Installation Flexibility

- Lightweight chambers are easy to handle and install
- Compact nesting provides more trench length in an equivalent stack height
- Shorter length allows more installation flexibility
- Ideal for curved and straight systems and all leachfield applications

Four-Foot Chamber

## Structural Strength

Structural tests, as certified by independent professional engineers, show that Quick4 Standard Chambers are stronger than all other Infiltrator Standard Chambers.

Certified Structural Strength

## MultiPort™ End Cap

### Infinite Piping Options

- Molded-in tear-out tabs on inlet ports provide a tight seal to the pipe
- Eight molded-in inlets allow you to pipe from any direction in a 180-degree radius
- Multiple ports eliminate pipe fittings
- End cap fits on either end of chamber

## Save time, labor and material cost.

The enhanced features of the Quick4 Standard Chamber and the proven performance of Infiltrator products add up to cost savings on labor and material, time savings on the job, and optimal design solutions.

Leave it to Infiltrator Systems to produce the next generation in onsite chambers.

### INFILTRATOR SYSTEMS, INC. STANDARD LIMITED WARRANTY

(a) The structural integrity of each chamber, end plate, wedge and other accessory manufactured by Infiltrator ("Units"), when installed and operated in a leachfield of an onsite septic system in accordance with Infiltrator's instructions, is warranted to the original purchaser ("Holder") against defective materials and workmanship for one year from the date that the septic permit is issued for the septic system containing the Units; provided, however, that if a septic permit is not required by applicable law, the warranty period will begin upon the date that installation of the septic system commences. To exercise its warranty rights, Holder must notify Infiltrator in writing at its Corporate Headquarters in Old Saybrook, Connecticut within fifteen (15) days of the alleged defect. Infiltrator will supply replacement Units for Units determined by Infiltrator to be covered by this Limited Warranty. Infiltrator's liability specifically excludes the cost of removal and/or installation of the Units.

(b) THE LIMITED WARRANTY AND REMEDIES IN SUBPARAGRAPH (a) ARE EXCLUSIVE. THERE ARE NO OTHER WARRANTIES WITH RESPECT TO THE UNITS, INCLUDING NO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

(c) This Limited Warranty shall be void if any part of the chamber system is manufactured by anyone other than Infiltrator. The Limited Warranty does not extend to incidental, consequential, special or indirect damages. Infiltrator shall not be liable for penalties or liquidated damages, including loss of production and profits, labor and materials, overhead costs, or other losses or expenses incurred by the Holder or any third party. Specifically excluded from Limited Warranty coverage are damage to the Units due to ordinary wear and tear, alteration, accident, misuse, abuse or neglect of the Units; the Units being subjected to vehicle traffic or other conditions which are not permitted by the installation instructions; failure to maintain the minimum ground covers set forth in the installation instructions; the placement of improper materials into the system containing the Units; failure of the Units or the septic system due to improper siting or improper sizing, excessive water usage, improper grease disposal, or improper operation; or any other event not caused by Infiltrator. This Limited Warranty shall be void if the Holder fails to comply with all of the terms set forth in this Limited Warranty.

Further, in no event shall Infiltrator be responsible for any loss or damage to the Holder, the Units, or any third party resulting from installation or shipment, or from any product liability claims of Holder or any third party. For this Limited Warranty to apply, the Units must be installed in accordance with all site conditions required by state and local codes; all other applicable laws; and Infiltrator's installation instructions.

(d) No representative of Infiltrator has the authority to change or extend this Limited Warranty. No warranty applies to any party other than the original Holder.

The above represents the Standard Limited Warranty offered by Infiltrator. A limited number of states and counties have different warranty requirements. Any purchaser of Units should contact Infiltrator's Corporate Headquarters in Old Saybrook, Connecticut, prior to such purchase, to obtain a copy of the applicable warranty, and should carefully read that warranty prior to the purchase of Units.
