

Entering Combo Vaccines in the NCIR

When administering combination vaccines in the NCIR, you only have to choose one antigen from the vaccines listed on the immunizations screen. When you choose the Trade Name/Lot from the drop down box, the remainder of the antigens will populate the History portion of the screen as well as cause the red combo boxes appear under the Vaccines Recommended screen.

From the History/ Recommend Screen

1. Click New Immunization Entry
2. Put a check in the New box next to any one of the antigens in the combo vaccine
3. Choose your Defaults for New Immunizations and Click Ok
4. Choose Eligibility
5. Choose Trade Name/ Lot
6. Choose Body Site
7. Click Ok
