| Influenza Documentation Forms |
|--------------------------------------|

The following documents are fully aligned with the North Carolina State Health Director’s Standing Orders for pharmacist-initiated influenza treatment and prophylaxis.

The *Pharmacist Assessment, Evaluation, and Prescribing Form – Influenza* is organized into three sections:

1. [Patient Form and Attestation](#)

2. [Pharmacist Evaluation and Plan of Care](#)

(for recording physical assessment, testing, and plan of care for documenting antiviral selection)

Note: Relevant sections may also serve as your provider notification, if required.
